

Connecting the people far apart

Aviation is very important in defence service to protect any nation

It increases noise pollution

Airspace congestion is serious issue

Thinks

Air Transportation Network

Air transport is indispensable for tourism

We can travel 796 km without any halt

Provides r oppourtunities

Undependable and risky since it depends on weather conditions

Air transport economically superior to than alternatives

No physical

barrier can

affect its

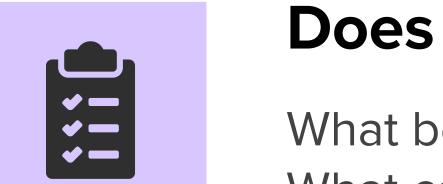

speed

What are their fears, frustrations, and anxieties?

Feels

What behavior have we observed? What can we imagine them doing?
